

# Alicia Keys

Lived: January 25 1981  
New York, New York

Fame: singer-songwriter, record producer, author, activist

The background of the entire image is a dense, repeating pattern of black musical notes, including eighth, quarter, and half notes, as well as treble and bass clefs, and sharp symbols. Overlaid on this background are five light gray circular bubbles of varying sizes. Each bubble contains a text block. The bubbles are arranged with one in the top left, one in the top right, a large one in the center, one in the bottom left, and one in the bottom right.

Keys graduated high school early, at age 16.

Alicia Keys became a part of the #nomakeup movement in 2016. She began this as a way to become herself again, feeling she had become lost amid her fame.

"I think religion gets very sticky. I think it's beautiful to have a belief in something and that's where religion comes in... But for me it's definitely spirituality in the sense of having integrity and certain morals I stand by."

Alicia began writing her own music at the age of 14.

Alicia Keys has sold more than 35 million albums worldwide!
